STACK MAGIC 	HOUGHTON 54 Gallons Stack-Magic™ fluids contain anti-corrosion and lubricity additives that operate successfully in deep waters to protect any type of metal. Houghton BOP fluids are non-nitrated and offer: Deep water and seawater stability. / Immediate response time. / Low toxicity and full biodegradability. / SFT (Norway) yellow zone compliance for discharge to sea. / CEFAS category "D" rating. / Freeze/thaw stability. / Resistance to microorganisms and fungal growth.
KOPR KOTE 	JET LUBE 5 Gallons KOPR-KOTE® drill collar and tool joint compound is a Premium quality, unleaded compound containing copper flake, graphite, and other natural extreme pressure and anti-wear additives. Its solids package is formulated to prevent excessive circumferential makeup by increasing the coefficient of friction under compressive forces. As stress levels rise above 50% of yield, the friction factor increases, limiting downhole makeup. Full hydraulic joint efficiency is maintained allowing joint shoulder faces to mate completely without standoff or deformation.

ERIFON HD 603 HP

MACDERMID

Erifon HD 603HP is a field proven, dilutable, waterbased hydraulic fluid specifically formulated for use in high-pressure open / vent to sea Blow Out Preventer (BOP) control systems. The fluid prevents valves from sticking even after long static periods and improves system life under slow moving high load conditions.

275 Gal Tote

HEAVY-DUTY DEGREASER

X2 Green

Heavy-Duty Degreaser Concentrate by Water Works is the latest advancement in cleaning technology replacing hazardous cleaning chemicals, such as mineral spirits, harsh caustics and alkaline detergents. Heavy-Duty Degreaser Concentrate aqueous solution offers a nonhazardous alternative for a range of cleaning applications.
